

Action Day – 1st October 2011

report by Robert Brigg
photographs by Margaret Adnitt

Our October working morning was greeted with hot and sunny weather and 13 willing helpers; these included a new helper.

Our main morning task was to cut the hedge in the main car park as well as cutback any overgrown forage around this area, work was also undertaken on the Harris Garden. Litter picking around the village and cutting back a footpath were also achieved during the two hours.

Another great mornings work undertaking projects improving our village.
