

Action Day – 3<sup>rd</sup> September 2011

report by Robert Brigg  
photographs by Margaret Adnitt

Our September working morning was warm and dry and was very well attended with 18 helpers.

The main group worked on cutting the hedge at the back of Mill pond along with a general tidy of the pond and surrounding area.

Litter picking was also undertaken around the village.

A small group spent time weeding and cutting back the roses and overgrown plants in the Harris garden, and another group worked on cutting back a footpath with strimmers.

Another great mornings work undertaking projects improving our village.
