

## Action Day – May 7th 2011

Our May action day started on a wet morning but it soon turned into another warm and sunny day. The rain was very welcome after a long sunny spell. Statistics haven't been fully compiled yet but it does look likely that April 2011 will go down as the warmest April on record.

Seven people attended. Footpaths around the village were cleared of overgrowth led by Bob Cheesewright. Pauline George weeded the Harris garden which is looking lovely.

Litter was removed from the village as usual. We then went to the Twinning Association coffee shop at the village hall for a well earned refreshment.

Barbara Ewing having just finished litter picking!
